(i) Risk Management

The Bank's activities expose the business to risks. The Bank has exposure to the following types of risks: credit risk, liquidity risk, market risk and operational risk. It is therefore a fundamental responsibility of management to ensure that all the risks associated with each class of business, each product and each type of transaction are identified as well as manage the risks associated with the conduct of the bank's affairs. These inherent risks are managed through a process of on-going identification, measurement and monitoring, subject to risk limits and controls. This process is critical to the Bank's continued profitability.

The process followed in the risk management for the period ended March 31, 2017 are consistent with those followed for the year ended December 31, 2016.
